JAVASCRIPT,ANGULAR JS,
REACT JS, NODE JS,EXPRESS
JS, Python Django

80%

PROJECTS

- **Online Descriptive Examination**
Main project of Bsc cs .
Front end : JSP.NET
Back end : SQLyog
 - Our website allows the user to attend the examination online and it built to check subjective answers in an online examination and allocate

marks to the candidate after verifying the answer.

- Once the user enters answers the system then compares this answer to original answer written in back end and allocates marks accordingly.

- **Crime Reporting System**

Main project of MCA.

Front end : HTML and CSS

Back end : MYSQL

Back end Language : Python

Framework : Django.

- The basic entity of this System is FIR. Any victim can lodge a request for FIR through INTERNET from any place. It is not necessary that it should be lodged at same place where the crime occurred.
- A XAMPP Server must be maintained for the temporary storage of the database to enable the processing facilities.

- **Restaurant App**

- Developed a standard Restaurants listed web app to check reviews address etc
- **Technologies used** - HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACT JS

- **Project Fair**

- Allow users to register and login to add, edit, delete their project details
- **Technologies used** - HTML, CSS, BOOTSTRAP, JAVASCRIPT, MONGO DB, REACT JS, EXPRESS, NODE JS

- **E-Cart**

- An E Commerce web app includes whislist, cart and buying method
- **Technologies used** - HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACT JS, REDUXJS
